The History of The American Legion Boys State

What is Boys State (Nationally)

As a program of The American Legion, Boys State developed from the concept that our youth should be offered a better perspective of the practical operation of government; that the individual is an integral part and commensurately responsible for the character and success of his government. As such, it is an activity of high educational value, born out of a need for youth training in practical citizenship.

American Legion Boys State is easily classified as a leadership action program where qualified male high school juniors take part in a practical government course designed to develop in the young citizens a working knowledge of the structure of government and to impress upon them the fact that government is just what they make it.

How and Why Boys State Started

Boys State was born of a desire to counter the Fascist inspired Young Pioneer Camps of the 1930s, where boys of high school age were being taught that democracy had outworn its usefulness and should be replaced by a new form of government, namely Fascism.

The Boys State program was formulated in the minds of Legionnaires Hayes Kennedy and Harold Card, both educators and both members of The American Legion of Illinois. It was their desire to start a counter movement within the ranks of American youth that would develop a better understanding of our system of government, and to instill in our youth a desire to preserve it. The format for Boys State was laid out by Harold Card and fashioned from a method employed by him in earlier years to properly police and organize a Boy Scout camp. Shorthanded on staff, he permitted the boys to govern themselves, hold an election and elect a mayor and a city council. Appointments were made to cover positions like police, fire, health and sanitation officials. Harold Card quickly found that the boys became so enthused in carrying out their 'city' duties, they almost neglected their Scout assignments. The boys were learning by doing.

The first Boys State was conducted at the Illinois State Fairgrounds, Springfield, Illinois, in June 1935. Now, many years later, the program is still providing that opportunity to young men . . . to learn by doing, and through this time well over one million young men have experienced American Legion Boys State. Though Fascism no longer poses a threat in today's world, our way of life is still threatened by forms of government alien to our democratic ideals, and by apathy among our own citizens. The American Legion continues to sponsor and to conduct Boys State in the belief that young citizens who are familiar with the operation of our system of government will be better prepared to uphold its ideals and maintain it for future generations

Evergreen Boys State Program Goals and Objectives

A program of this scope encompasses many important objectives. Those which we, The American Legion, feel are most important and those we strive the hardest are:

To develop civic leadership and pride in young American citizenship.

It is our earnest hope that each young man attending Evergreen Boys State will return to his community a better citizen. We desire to arouse in him, a personal desire to demonstrate this fact by his willingness to make civic contributions that will help to make his community a better place in which all may live.

To arouse a keen interest in the detailed study of our government.

Here we desire to create more than just a passive interest in the actual study of government; we strive to create an interest that will be born of the desire for knowledge.

To develop an understanding of American traditions and belief in the United States of America.

Here we desire to impress upon the young men the glorious traditions which have made this country what it is today. To demonstrate freedom is maintained by the labors of those who believe in building a better Country.

To arouse in the young citizens a determination to maintain our form of government.

This we attempt to accomplish in many ways but primarily by bringing them into the full realization of how wonderful it is to be an American!

The final two objectives are taken from the Preamble to the Constitution of The American Legion.

"To inculcate a sense of individual obligation to the community, state and nation."

"To safeguard and transmit to posterity the principles of justice, freedom and democracy."

The American Legion Evergreen Boys State

PROGRAM PURPOSES

The American Legion Evergreen Boys State is a plan for training young men in the functional aspects of citizenship. It is a program of education conducted by The American Legion, Department of Washington. Its purpose is to teach the youth of today constructive attitudes toward the American form of government. The American Legion Evergreen Boys State shows that our scheme of government has not outworn its usefulness; all a republic needs is an intelligent citizenry, and an honest and impartial administration responsive to the will of the people.

It is a practical school of government, a program of education by participation - showing the part each person can play within our system of government.

PROGRAM

The American Legion Evergreen Boys State is conducted on a "**learn by doing**" basis whereby the selected Citizens practice the procedures and operations of the various branches of city, county and state government, political parties, and a state legislature. The program is aimed at developing a more active and intelligent interest in the duties, privileges, rights and responsibilities of citizenship. It is a workshop of democracy in action.

The method of teaching at The American Legion Evergreen Boys State is to have the youthful citizens form and operate twelve fictitious cities, four counties, and one state; form and operate two fictitious political parties; conduct all local and state law enforcement as well as the judicial systems; form and conduct a bicameral state legislature. The constitution, statutes and codes of the State of Washington are used as the pattern for building the structure of Evergreen Boys State.

Citizens of The American Legion Evergreen Boys State will use knowledge already acquired regarding political machinery, parliamentary procedure, law enforcement systems, courts and legislative operation, etc., and will gain additional knowledge from the Staff while performing the actual functions of office holders. Each Citizen also is provided with text materials that will be used both during and after The American Legion Evergreen Boys State to explain the various branches and procedures.

As he registers, each Citizen is **assigned** to an Evergreen Boys State "**city**" and to a "**political party**". Such assignments are made to insure equal participation in all branches of government and political parties requiring each Citizen to stand on his own by meeting and working with Citizens from all areas of Washington State. Evergreen Boys State cities are named after Washington trees; counties after mountain ranges or water bodies, the state is named "**Evergreen**"; the parties are the "**Federalists**" and "**Nationalists**".

The curriculum calls for city governments to be formed first. Political parties are then formed, county and state conventions are convened, and each student becomes a Citizen. Aspirants to city, county and state political office's file and campaign individually, through their respective political parties. Primary and general elections are held; inaugural ceremonies are conducted, then following the installation of all officers, all branches of the city, county and state government function.

Instructors, who by experience know the functions and procedures of state government and its political subdivisions, guide and coach the youthful citizens. They are careful, however, to allow the Citizens to function by themselves. The aim and purpose of The American Legion Evergreen Boys State is thus attained - to let the Citizens live the process.

From this practical school of government, the young citizen has the opportunity to learn for himself that his government is just what he makes it. He learns the part each must play under our system of government, each can run for office, each can vote for the candidate of his choice, also each has a voice and a part in shaping the policies of his government.

EVERY CITIZEN HAS A DEFINITE AND INTEGRAL PART IN THE PROGRAM.

NON-PARTISAN

The American Legion Evergreen Boys State is **non-partisan, non-sectarian and non-military**. Problems will be considered without reference to any existing political party, and will be free from propaganda. The sole purpose is to enable the populace to grasp the meaning of some of the responsibilities he will be called upon to assume, when he becomes an adult.

It should be clearly understood that selection and assignment of the Citizens to parties is in no way connected with existing political parties in Washington. They are purely mythical and none of the principles typifying any of the existing parties will be assigned to the parties in Evergreen Boys State.

ELIGIBILITY

Citizens must be JUNIORS IN HIGH SCHOOL. Citizens must be (male) 15 to 18 years of age and must **not** have attended any previous Boys State. Candidates who have attended college or who have not completed the 11th grade will not be accepted. Running Start is considered a High School program for eligibility purposes. It is felt that the greatest good can be obtained from High School Juniors, since they will return home to offer leadership in their school and community during their senior year.

APPLICATIONS FOR CANDIDATES THAT DO NOT MEET THE ABOVE REQUIREMENTS WILL BE RETURNED TO THE SPONSOR.

Selection of all CITIZENS is the responsibility of the local American Legion Post.
