The American's Creed

*I believe in the United States of America as a
government of the people, by the people, for the people;
whose just powers are derived from the consent of the
governed; a democracy in a Republic; a sovereign Nation
of many sovereign States; a perfect Union, one and
inseparable; established upon those principles of
freedom, equality, justice, and humanity for which
American patriots sacrificed their lives and fortunes.*

*I therefore believe it is my duty to my country
to love it; to support its Constitution; to obey its laws;
to respect its flag; and to defend it against all enemies.*

June 1994

Dear Boys Stater:

Congratulations on your selection and decision to participate in American Legion Boys State. I welcome you to this outstanding educational opportunity. I'm certain you will not be disappointed in your decision to attend.

You will find that Boys State will provide you with an experience that will last a lifetime. As one of 28,000 young men nationwide who are enrolled annually in the program, you will experience government in a practical sense by actually participating in it. Boys State can be classified as a leadership action program designed to develop a working knowledge of the structure of government and to emphasize the fact that government is just what YOU make it.

The American Legion is very selective in appointing volunteer counseling staff who will guide and counsel you during the program. These volunteers give of their time unselfishly because they believe in the program and the benefits it provides to those who attend.

If our form of government is to continue, it must result from citizen involvement. The American Legion is proud to offer this practical study of government to help insure that future generations are knowledgeable and involved in "their" government. If this government "of the people, by the people, and for the people" is to be carried on, then the burden of the task rests squarely on your shoulders and those of your generation.

On behalf of the more than three million war veterans who comprise the membership of The American Legion, I extend our best wishes for an interest-provoking, exciting and personally rewarding 1994 American Legion Boys State.

Sincerely,

A handwritten signature in cursive script that reads "Bruce Thiesen".

BRUCE THIESEN
National Commander

THE AMERICAN LEGION EVERGREEN BOYS STATE

TO: 1994 Boys State Delegates

FROM: C. G. 'Coke' Roberts, Director

It is not just what you learn while at Boys State, but what you do with that information that counts.

You have been exposed this week to a great deal of valuable information about the American Political System. In one week you have had the equivalent of one semester of school work in how our system of local governments operate, plus how our court systems protect the rights of every citizen.

But, we of The American Legion, and the Boys State Staff, urge you to use this information to make this nation of ours even a greater nation than it is now. We want you to become involved!

Register to vote and be sure to vote; run for office; be ready to make your voice heard when it comes to community or school decisions; study the issues!

Remember there are three types of people in this world:

"People that make things happen".

"People who watch what happens".

"And, those people who wonder what happened".

We want you of this 1994 Boys State session to be the people in this country who make positive things happen.

You are our 54th graduating class. Many proud young men have preceded you. We are hoping that you, the Boys State Class of 1994, will make us even more proud of you than those who have preceded you.

Have a good year!

Governor's Message

At this time it maybe helpful that the Legislative body be made aware of my position on certain issues that may be presented before both bodies of the Legislature. In no way do I support any State Health Care System. I feel that Socialized Health Care is an infringement upon the personal rights of our citizens. It limits their freedom to choose and it makes them dependent on us. Citizens should not look to the Government for their Sustenance, the Government should rely on the Citizens for its sustenance.

Some have mentioned the possibility of establishing a State Lottery. Personally, I am opposed to gambling but on state level I don't have a problem. The only problem I foresee is the possibility of condemnation from parents and administrators. The Lottery is a dangerous proposition.

I support Welfare Reform. I feel we need citizens to help citizens. This is the type of Welfare I would like to see. Let's involve the community in providing support for our down and out citizens. We can do this by organizing the community into charitable and welfare organizations. I firmly believe that if we provide the opportunity for citizens to give, they will do so.

On the Minority Status of Homosexuals. A man is a man whether he is homosexual or not. He deserves the same rights that all of us enjoy. However, he does not deserve special status. He is a citizen and nothing more. Again I would urge you to be tolerant of the homosexual community. They deserve civility, but nothing more.

I will not support bills that raise taxes. The Consumer is the thrust behind our economy, not the Government.

Gentlemen, we have had a successful week. The way we have come together is very admirable. I am flexible. I need your input and your help. I hope that as a Legislative and Executive branch, we can work together and really make some fantastic things happen. I am honored to be your Governor and I truly believe that we should come together, cross party lines and become united. By the way, I fully support the merger of Boys and Girls State.

1994 BLUE PARTY PLATFORM

Preamble

We, the Blue Party of Evergreen Boys State , recognize that our beliefs rest upon certain principles:

"We hold these truths to be self evident, that all men are created equal, that they are endowed by their creator with certain unalienable rights, that among these are life, liberty and the pursuit of happiness. That, to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed."

Declaration of Independence

Thomas Jefferson further emphasized that "the care of all human life and happiness, and not their destruction, is the first and only legitimate object of good government."

To ensure these rights, the Blue Party supports:

Family and Welfare

Stable families are the cornerstone of society and civilization.

Therefore, We, the Blue Party aware, that existing welfare programs, in many cases, foster dependency and illegitimacy, the breakdown of family values and social unrest, urge that existing welfare programs be reformed to better suit the needs of our society by substituting jobs for welfare and opportunity for dependency.

Health Care

Sound health is necessary for a sound society.

Therefore, We the Blue Party believing that the existing health care provided in Washington State is outstanding, encourage only those changes that will continue to make and expand this superlative health care , but urging that the system continue to maintain existing levels of health care and access to doctors and medical facilities.

Environment and Economy

Both human rights and natural resources must be protected.

Therefore, We the Blue Party recognize that our society's continued health depends upon both a healthy environment and a healthy economy, urge that a balance be struck and maintained that will allow both jobs and trees, not just to coexist, but to grow together.

Crime

Criminals are not the victims of society; society is the victim of criminals.

Therefore, We the Blue Party recognizing that our streets are unsafe, our communities are ridden with drugs where criminals walk freely, agree that Washington State is in a state of criminal disorder. Among measures to correct this should be:

- Harsher penalties for repeat offenders.
- Fewer prison amenities - prisons should be punishment.
- And justice should be swift and certain.

Education

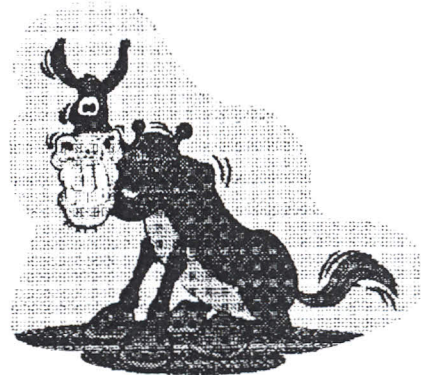

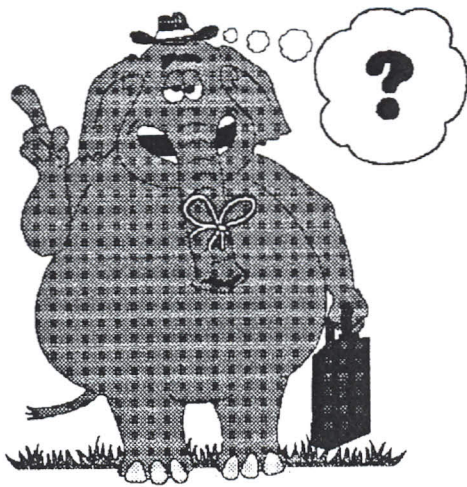

Our form of government cannot survive without an educated citizenry.

Therefore, We the Blue Party, recognize that education affects many aspects of society, including public violence, juvenile gangs, job opportunities and voting and government. In our eyes, we feel that educational reform needs to take place that education may again function to make us a leading nation.

1994 GOLD PARTY PLATFORM

"GOLD" is one party formed by Boys State staff and in it are delegates of many diverse background. Thus, the party was not formed by the same political ideology, unlike the republicans or democrats. But rather, the luck of the draw. As a result, we, the "GOLD" party agreed on one central idea: Individuals live and campaign on their own core of values and beliefs. We are not governed by the name "GOLD" and that of which we don't believe.
